***North Tahoe Fire Protection District
Management's Discussion and Analysis
June 30, 2018***

Purpose

This discussion and analysis of the North Tahoe Fire Protection District's financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2018, and the District's financial status at June 30, 2018. Together with the District's Financial Statements and Independent Auditors' Report, and the required supplementary information, they form the District's annual report. This report is designed to provide our citizens, taxpayers, employees and customers with a general overview of the District's finances and to show the District's accountability for the money it receives.

Financial Highlights

- As of June 30, 2018, the District's cash and investment balance is \$8,079,633. \$87,895 of this balance is restricted. Capital assets, net of accumulated depreciation, at June 30, 2018 total \$10,855,911.
- The District used 100% of its property tax, special tax and fire assessment revenues to fund operations and general fund activities.
- Approximately \$1,688,384 of property tax revenues that would have been otherwise allocated to the District will be reallocated to other governmental agencies. The State of California is shifting property taxes from local government to help reduce the State's budget deficit and the Placer County Redevelopment Successor Agency has frozen property tax appreciation in each of three geographically defined areas within the Fire District and subject to a 2% pass-through retains the balance of the District's tax.
- For every dollar of payroll for Tier I Safety employees, the District is responsible to pay approximately \$0.20 in retirement (PERS) expense. For every dollar of payroll for Tier II Safety employees, the District is responsible to pay approximately \$0.18 in retirement expense. For every dollar of payroll for Tier III Safety employees, the District is responsible to pay approximately \$0.12 in retirement expense. For every dollar of payroll for Tier I Miscellaneous employees, the District is responsible to pay approximately \$0.14 in retirement (PERS) expense. For every dollar of payroll for Tier II Miscellaneous employees, the District is responsible to pay approximately \$0.13 in retirement expense. For every dollar of payroll for Tier III Miscellaneous employees, the District is responsible to pay approximately \$0.07 in retirement expense.
- Regarding workers compensation, \$8.31 of every \$100.00 in gross payroll is allocated to safety personnel and \$4.67 of every \$100.00 in gross payroll to miscellaneous personnel.
- These, along with other employee-related fringe benefits, help to illustrate how employee costs are the largest and most significant portion of the District budget.
- With regards to PERS retirement, having a defined benefit plan historically resulted in broad swings in employer contributions directly tied to gains and losses out of District control. The District participates in a pooled plan with other agencies which has stabilized contribution rates in the short-term. Similar pooling with other agencies has stabilized workers compensation rates. District staff anticipates increases in both programs in the coming years.

***North Tahoe Fire Protection District
Management's Discussion and Analysis
June 30, 2018***

Overview of the Financial Statements

This annual report consists of three parts – *management's discussion and analysis* (this section), the *basic financial statements* and *required supplementary information*. The basic financial statements include two kinds of statements that provide different views of the District.

- The *government-wide financial statements* consist of the Statement of Net Assets and the Statement of Activities. These statements provide both long-term and short-term information about the District's overall financial status.
- The *fund financial statements* consist of the Governmental Funds Balance Sheet and the Statement of Revenues, Expenditures and Changes in Fund Balance. These statements provide the District's activity on a fund basis. The *fund financial statements* tell how the District's services were financed in the short-term, as well as what remains for future spending.

Government-wide Statements

The government-wide statements report information about the District's financial activities as a whole in a way that helps determine if the District is better or worse off as a result of the year's activities. The Statement of Net Assets includes all of the District's assets and liabilities at the end of the year. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid. These statements use the accrual basis of accounting, which is similar to the basis of accounting used by most private-sector companies.

These statements report the District's net assets and the changes in them. The District's net assets – the difference between assets and liabilities – provide one measure of the District's financial health. Over time, increases or decreases in the District's net assets are an indicator of whether its financial health is improving or deteriorating. To assess the overall health of the District, you need to consider additional non-financial factors such as changes in the property tax base and the condition of the District's facilities.

Fund Financial Statements

The fund financial statements are reported side-by-side with the Statement of Net Assets and the Statement of Activities. These statements provide information by fund. The fund financial statements provide a short-term view of the District's operations and the service it provides, which is providing full service, all-risk fire protection, fire prevention, paramedic ambulance and rescue services within the boundaries of the District and contractual areas in El Dorado County, Meeks Bay Fire Protection District and Alpine Meadows. The District has only one fund, the General Fund, which serves as the general operating fund.

***North Tahoe Fire Protection District
Management's Discussion and Analysis
June 30, 2018***

Financial Analysis of the District as a Whole

Registered voters within the District passed a special tax increase in August 2005 which provided \$2,641,136 of revenue in the current year. Additionally, property owners within the District passed a special assessment in the fall of 2007 which provided \$736,047 of revenue in the current year. Following direction of the Board of Directors, the District has begun a program of rebuilding unrestricted reserves as a “rainy day” fund and designating restricted reserves for refurbishing and replacing the District’s apparatus and fire stations.

Condensed Financial Information

<i>NET POSITION</i>		
ASSETS:	2017	2018
Non-capital	\$ 8,458,530	\$ 9,252,917
Capital	\$ 11,332,977	\$ 10,855,911
Total Assets	\$ 19,791,507	\$ 20,108,828
 DEFERRED OUTFLOWS OF RESOURCES		
Total Deferred Outflows	\$ 6,159,765	\$ 6,752,416
 LIABILITIES:		
Current	\$ 1,604,822	\$ 1,950,736
Long-term	\$ 29,234,040	\$ 32,579,990
Total Liabilities	\$ 30,838,862	\$ 34,530,726
 DEFERRED INFLOWS OF RESOURCES		
Total Deferred Inflows	\$ 910,935	\$ 344,126
 NET POSITION:		
Net Investment in capital assets	\$ 1,420,545	\$ 1,383,297
Restricted	\$ 14,908	\$ 26,615
Unrestricted	\$ (7,233,978)	\$ (9,423,520)
Total Net Assets	\$ (5,798,525)	\$ (8,013,608)

The figures noted above reflect an increase in Total Assets of 1.6%. These changes are the result of additional ambulance revenues reflected in “Cash” and receivables. The 11.97% increase in total liabilities is the result of reporting the net other post-employment benefits (OPEB) liability, aggregate net pension liability, and new equipment leases. Finally, a decrease in Total Net

***North Tahoe Fire Protection District
Management's Discussion and Analysis
June 30, 2018***

Position of 38% is noted from the prior fiscal year. The majority of this decrease (23%) is attributed to a restatement of net position, as of June 30, 2017, resulting from the implementation of GASB 75 (see Note 18 for specifics).

Changes in Net Position - Governmental Activities

The following presents a summary of revenues and expenses for the fiscal year ending June 30, 2018. The percentage is in relationship to the annual totals for revenue and expenses.

	2017		2018	
	AMOUNT	% OF TOTAL	AMOUNT	% OF TOTAL
REVENUES:				
Taxes	\$ 9,450,170	65%	\$ 9,846,813	62%

Bad debt	\$ 369,851	3%	\$ 277,558	2%
Depreciation	\$ 751,494	5%	\$ 750,003	4%
Total Expenses	\$ 14,382,234	100%	\$ 16,731,742	100%
Change in Net Assets	\$ 109,746		\$ (861,027)	
Beginning Net Assets	\$ (5,908,270)		\$ (7,152,581)	
Ending Net Assets	\$ (5,798,525)		\$ (8,013,608)	

Property tax revenue remains the single largest source of revenue for the Fire District. Beginning in the 2008/2009 fiscal year, the District levied a property owner approved Fire Suppression Assessment. Proceeds from this Assessment were used 1) to obtain, furnish, operate and maintain fire suppression services and apparatus including, but not limited to, emergency communication systems, property inspection and chipping programs, fire engines and station equipment, and 2) to pay the cost of firefighting personnel as to assure that there are always enough personnel available to effectively respond to a fire emergency during periods of peak demand.

In fiscal year 2017/2018, total property tax revenues increased \$396,643; the District received some of the anticipated pass through monies for the Placer County Redevelopment Successor Agency. Additionally, the District received some of the residual disbursement of these funds.

***North Tahoe Fire Protection District
Management's Discussion and Analysis
June 30, 2018***

During the previous year, the District received pass through monies as well as residual disbursement from the Placer County Redevelopment Successor Agency.

Revenue received from ambulance service fees increased by \$121,152 over the prior fiscal year to \$2,113,508. This is due to the Ground Emergency Medical Transport (GEMT) Supplemental Reimbursement Program. We received payments for multiple fiscal years in 2017/2018.

Overall contract revenues increased to \$2,556,872. Contract revenues are based partly on property taxes (as is the case in the District's contract with Alpine Springs County Water District and El Dorado County) and since Property Taxes revenues increased, we would expect to see an increase in these revenues. In fiscal year 2013/2014, the District entered into a contract with Meeks Bay Fire Protection District to provide Fire Management Services and other related services. In 2015, the District entered into an additional companion agreement with a labor group unification provision stating that as of July 1, 2016, all safety personnel will become employees of NTFPD. These payroll costs were incorporated into the contract, which resulted in a substantial increase from fiscal year 2015/2016. Personnel cost increased in 2017/2018 which would in turn cause an increase in the Meeks Bay contract amount.

Contributing to the increase in contract revenue is the increase in fire season activity. Notable in 2017/2018 was the District's responses to the Tubbs/Atlas fires in Napa-Sonoma and the Thomas Fire in Ventura County. Strike Teams generated \$750,463 in reimbursement type revenue. This is done by providing mutual aid, "assistance for hire agreements", where the District provides fire apparatus and overhead personnel to state and federal forest agencies through cooperative agreements such as the California Fire Assistance Agreement and USFS Operating Agreements. California and other western states have seen an alarming increase in both the length and severity of fire season. Correspondingly, the District's Strike Team revenue has increased exponentially as well, most of which goes to covering personnel and other associated costs. The factors in the paragraph above as well as the Strike Team revenue increase combined to account for the increase to contract revenues.

Grant revenues have increased from the prior year. This increase is due the District being awarded multiple new grants in 2017/2018, such as SNPLMA 16, FEMA Disaster Recovery, the AFG Thermal Imaging Cameras grant and the AFG Radio grant. Also, the FEMA SAFER grant reimbursement amount increased \$195,759 this fiscal year. The FEMA SAFER grant expired in October 2018.

Revenues increased by approximately 10% and expenses increased by approximately 16% over the previous fiscal year. Expressed as dollars, revenue increased \$1,378,736, while expenses increased \$2,349,508. Total salaries increased by approximately 4%; while benefit costs increased by approximately 38%. The increase in salary expense is a result of the MOU program raises, the addition of grant funded positions, as well as an increase in the District minimum staffing policy. The increase in benefit costs is primarily due to an increase in PERS pension expense per GASB 68 valuation reports and other post-employment benefits (OPEB) expense per GASB 75 valuation reports. It is also attributed to the MOU program raises, the addition of grant funded positions, the minimum staffing policy, as well as CalPERS employer contribution

***North Tahoe Fire Protection District
Management’s Discussion and Analysis
June 30, 2018***

increases and a workers compensation rate increase. The district closed 2018 with \$8,079,633 available in cash and investments, of which \$87,895 is restricted.

General Fund Budgetary Highlights

A budget is prepared annually and includes proposed expenditures and the means of financing them for the upcoming year. This includes estimates for the current year and actual data for the preceding year. The budget is reviewed at a properly noticed Board meeting to obtain taxpayer comment. Prior to June 30th, the budget is legally enacted through passage of a resolution. The District’s Board of Directors reviews reports of operations and examines any variance from the approved budget at least monthly. Formal budgetary integration is employed as a management control device during the year. Appropriations lapse at the end of each fiscal year. The District may authorize supplemental appropriations during the year.

Capital Asset & Debt Administration

On June 30, 2018, the District had \$17,061,388 invested in capital assets. There was approximately \$346,393 in fixed asset purchases made during the 2017/2018 fiscal year. Fixed asset additions made during the 2017/2018 year were made up of multiple utility vehicle purchases, an ambulance lease, thermal imaging cameras, a defibrillator, a server, and a treadmill. Disposals totaled \$384,016 which consisted of the disposal of surplus utility vehicles, an ambulance, and a Type I Fire Engine.

	2017	2018
Land	\$ 73,455	\$ 73,455
Buildings and improvements	\$ 10,596,918	\$ 10,596,918
Equipment	\$ 6,428,639	\$ 6,391,015
CIP	\$ -	\$ -
Total	\$ 17,099,012	\$ 17,061,388

Long-Term Obligations

At year end, the majority of the District’s long-term obligations consist of the financing obligation for the new fire station, long term post-retirement benefits, leases and accrued leave payouts. The total long term liability at June 30, 2018 is \$32,579,990.

Economic Factors

The Fire District completed the Station 51 Public Safety Center construction project in 2012/2013 earning a LEED Gold accreditation. This project was accomplished in part with the cooperation of the Tahoe City Public Utility District who made the property available for \$1.00 per year in a long-term lease arrangement. New Station 51 serves both as a Fire Station and as the District’s Headquarters, thus centralizing executive, administrative and community services

***North Tahoe Fire Protection District
Management's Discussion and Analysis
June 30, 2018***

for our customers. Station 51 has been designed to meet the community's needs for the next 50 years to come.

Most of the District's other fire stations were built in the 1950s and 1960s. As such, they were built with volunteer firefighters in mind versus full-time 24-hour staff and could not anticipate the garaging capacity required for today's larger fire equipment/apparatus. These older facilities fail to meet seismic standards, Best Management Practices (BMP) required by TRPA, parking and ADA requirements. In addition, they weren't designed with gender diversity requirements of a 24-hour work force and are operationally expensive to heat and repair. Challenges of replacing aging infrastructure will continue to be a theme for many years with Station 52 (Kings Beach) and Station 53 (Homewood) as priorities.

After the voter-approved special tax increase implemented in the 2005/2006 fiscal year, the District carefully followed a plan of re-building reserves. Funds are internally segregated into categories including "unrestricted", "facilities" and "apparatus replacement". This effort was consistent with the District's campaign pledge to its constituents. Funds from that tax have also been allocated to maintain staffing levels, training and equipment. While no specific reserve levels have been established by the Board Members, the District is at a point in its "unrestricted" category that more emphasis can be placed on establishing funds for re-building its aging infrastructure and apparatus.

Reserve funds were largely impacted in the past by broad swings in PERS contributions and "raids" on District revenue by the State of California and Placer County Redevelopment Agency. Beginning in the 2008/2009 fiscal year, the District levied a property owner approved Fire Suppression Assessment. Proceeds from this Assessment were used 1) to obtain, furnish, operate and maintain fire suppression services and apparatus including, but not limited to, emergency communication systems, property inspection and chipping programs, fire engines and station equipment, and 2) to pay the cost of firefighting personnel as to assure that there are always enough personnel available to effectively respond to a fire emergency during periods of peak demand. An independent citizen's financial oversight committee was formed to advise the Board on an annual expenditure plan for this assessment and the special tax.

The District's 15-year agreement with the Alpine Springs County Water District for full fire suppression and prevention services stipulates the District's requirement to staff the fire station in Alpine Meadows a minimum of 150 days per year for the term of the agreement. Revenues representing 80% of property tax are provided to offset these new costs. The District has funded a storage building adjacent to the Alpine Meadows fire station to facilitate storage needs of the entire Fire District. The District's 2012 FEMA SAFER grant & subsequent 2014 FEMA SAFER retention grant provide funding for additional Firefighters in order to meet the NFPA 1710 response assembly standard and keep part-time stations (including the Alpine Meadows station) staffed more regularly. As a result, the District has exceeded the minimum contractual days for staffing this fire station for the past four years.

The District has implemented a voter-approved Community Facilities District (CFD) No. 2012-1 (Ladder Truck O&M). Only larger, taller, buildings/structures and dense developments are

***North Tahoe Fire Protection District
Management's Discussion and Analysis
June 30, 2018***

required to join the CFD and provide funding. The purpose of this CFD is to provide funding of an aerial apparatus which is designed to provide greater fire suppression capabilities for these types of commercial developments. While the District may use this apparatus during various different types of incidents, its primary function would be to respond to larger, taller, dense properties within the District. The Domus housing project(s) was the originating entity and the funds remain dormant until another qualified entity joins. This year two additional projects joined the CFD and the District will begin the process of acquiring a ladder truck prior to 2019.

The District will continue to provide a high level of fire suppression, rescue and emergency medical services to property owners and visitors to the area. However, current revenues don't address the need for additional staffing, aging infrastructure and specialized equipment such as an aerial ladder truck. It will provide for a gradual replacement of equipment and apparatus through a combination of "Municipal Leasing", "pay as you go" and grant funding techniques.

In April of 2014, the North Tahoe Fire Protection District (North Tahoe) and the Meeks Bay Fire Protection District (Meeks Bay) entered into a mutual aid management agreement, whereby North Tahoe will provide fire services management and related administrative and operational services to Meeks Bay.

The scope of services within the agreement includes a delegation of authority for all duties required by law previously performed by the Meeks Bay Fire Chief including but not limited too; fire suppression operations, fire prevention, rescue services, training, emergency medical services, hazardous materials responses, forest fuels management, defensible space programs, equipment, facilities, supplementary staffing and personnel management. The Meeks Bay Fire Protection District pays the full salary and benefits for one North Tahoe Division Chief, three Captains, and three Firefighters, as well as reimburses the District for direct and indirect costs associated with the management and labor agreements.

The State of California's adoption of the Insurance Services Office (ISO) 2012 Fire Suppression Rating Schedule (FSRS™) places greater emphasis on Fire Prevention, public education and catastrophic wildfire avoidance. In turn, the District must respond with programs that address these priorities in order to protect the communities we serve economic and environmental interests.

Fire prevention programs beyond current levels are necessary to avoid the risk of catastrophic fires. To offset the associated costs of such programs, District staff has implemented a cost recovery program that includes plan check and inspection fees to help fund the fire prevention bureau. The District's Capital Facilities and Mitigation Fee Study justifies the need for these fees and was adopted by the Board of Directors in 2008 with the most recent update being completed in 2013. These monies are intended to address, in part, the impacts that new projects and developments have on Fire District service delivery.

Significant effort has gone into reducing the threat of catastrophic wildfire through funding for fuels reduction and defensible space. These activities are reliant on outside funding and dollars generated by the property-owner approved fire suppression assessment. To meet this end, the

***North Tahoe Fire Protection District
Management's Discussion and Analysis
June 30, 2018***

District continues an ongoing aggressive grant writing campaign and has developed strategic partnerships in Forest Fuels management with both the North Lake Tahoe Fire Protection District and the Meeks Bay Fire Protection District. As fire knows no boundaries, so should our prevention activities.

In fall of 2017, the Insurance Services Office (ISO) performed a field visit and review (audit) of North Tahoe Fire Protection District, Meeks Bay Fire Protection District and the Alpine Springs County Water District. This is the first-time that they considered all three jurisdictions together as what they call a Fire Protection Service Area; North Tahoe FPSA. The Districts historical Class 4 (PPC 04/8B) improved to a Public Protection Class 3 (PPC 03/3Y) with notable improvements in many categories, including personnel, training and apparatus. Only 3,409 fire agencies across the country are considered Class 3 fire departments. Many insurance companies use the ISO PPC for establishing fire insurance rates for their customers, often times Class 1 – 3 are banded together as the top tier. Improvement in our ISO classification to a Class 3 should contribute to lower fire insurance rates and greater insurability within our communities.

The District adopted a GASB 45 Plan in 2009/2010 that addresses the financial liability the District will face in funding post-employment benefits such as medical insurance. The Plan requires the District to set aside a percentage of revenues annually to help offset the costs associated with future retirements. The District completes a bi-annual valuation of this Plan in compliance with PEMHCA.

GASB 45 was replaced by GASB 75 for fiscal years beginning after June 15, 2017. The primary objective of this statement is to improve accounting and financial reporting for postemployment benefits other than pensions. GASB 75 resulted in a single method of attributing the actuarial present value of projected benefit payments to periods of employee service, as well as immediate recognition in OPEB expenses. As a result of the implementation of GASB 75, several new note disclosures and journal entries were required in these financial statements. The District will continue to complete a bi-annual valuation based on the guidelines established by GASB 75.

The District implemented GASB 68 in fiscal year 2014/2015. This Statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expense. For defined benefit pensions, such as ours, this Statement identifies the methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. As a result of the implementation, several new note disclosures and journal entries were required in these financial statements.

Finally, the District's wage and benefit contracts (MOU) with our employee groups were renewed December 1, 2018. These MOUs are for a five year term (December 1, 2018 – December 31, 2023). These contracts contain pay and benefit packages which are based upon an employee's date of hire and/or entry into CalPERS system. Employees hired prior to December 31, 2012, are classified as "Classic Members" by PERS; as are employees hired after January 1, 2013, who were previously classified as "Classic Members" by PERS, due to their prior services with another PERS agency. Employees hired after January 1, 2013, with no prior service with a

***North Tahoe Fire Protection District
Management's Discussion and Analysis
June 30, 2018***

PERS agency, are classified as "PEPRA" members by PERS. Salary and Benefit costs associated with PEPRA employees' is considerably less per employee than for Classic Members. Additionally, this contract contains provisions that all our employees pay their employee portion of PERS retirement contribution and is compliant with PEPRA legislation AB340.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors
North Tahoe Fire Protection District

Report on the Financial Statements

We have audited the accompanying financial statements of North Tahoe Fire Protection District, which comprise the statement of net position and governmental fund balance sheet as of June 30, 2018, and the related statement of activities and governmental fund revenue, expenditures and changes in fund balance for the year then ended, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the North Tahoe Fire Protection District, as of June 30, 2018, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 18 to the Financial Statements, the District implemented GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. The adoption of this statement required retrospective application of previously reported net position at July 1, 2017 as described in Note 18 to the basic financial statements. In addition, Net OPEB Liability is reported in the Statement of Net Position in the amount of \$6,725,996 as of June 30, 2017, the measurement date. This Net OPEB Liability is calculated by actuaries using estimates and actuarial techniques from an actuarial valuation as of June 30, 2017, the measurement date. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 1-9, budgetary comparison on page 40, the Schedule of District's Proportionate Share of the Net Pension Liability on page 41, the Schedule of Contributions to the Pension Plan on page 42 and the Schedule of Changes in Net OPEB Liability and Related Ratios on page 43 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 15, 2019 on our consideration of the North Tahoe Fire Protection District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering North Tahoe Fire Protection District's internal control over financial reporting and compliance.

The accompanying notes are an integral part of this statement.

NORTH TAHOE FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS

For the Year Ended June 30, 2018

1. Summary of Significant Accounting Policies

North Tahoe Fire Protection District (the "District") was created on June 29, 1993 as a consolidation of the North Tahoe Fire Protection District and the Tahoe City Fire Protection District. The District operates under the State of California Fire Protection District Law of 1987 and State Senate Bill 515. The District operates under a board-fire chief form of government and provides fire suppression, fire prevention, ambulance, emergency medical services and rescue services to Placer County residents living in the North Lake Tahoe area.

The District's basic financial statements include the accounts of all operations.

The accounting policies of the District conform to generally accepted accounting principles ("GAAP") as applicable to governmental type organizations. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of such significant policies:

Measurement Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when they are earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized in the year in which they are levied. Grants and contracts are recognized as soon as all eligibility requirements imposed by the provider have been met.

The government-wide statements are prepared using a different measurement focus than the governmental fund financial statements (see further detail below). Therefore, a reconciliation has been provided to better identify the relationship between the government-wide financial statements and the governmental fund financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectable within the current period or soon enough thereafter to pay liabilities of the current period.

The District generally considers all revenues available if they are collected within 90 days after year-end. Principal revenue sources of the District that are susceptible to accrual include property taxes, ambulance and emergency medical services, interest income, and contract fees. Mitigation fees and reimbursable revenues are not susceptible to accrual as they are generally not measurable until received in cash. The period of availability is increased to 90 days because the collection period for ambulance and emergency services revenues generally extends beyond 60 days. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures

NORTH TAHOE FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS

For the Year Ended June 30, 2018

related to compensated absences paid 90 days after year-end, are recorded only when payment is due.

Since the District is engaged in a single governmental program, the District has elected to combine the fund financial statements with the government-wide financial statements using a columnar format that reconciles individual line items of the fund financial statements to the government-wide statements in a separate column.

When both restricted and unrestricted resources are available for use, it is the District's practice to use restricted resources first, then unrestricted resources as they are needed.

The District's accounting system is operated on a fund basis. A fund is a separate accounting entity with a self-balancing set of accounts. A fund is maintained for the purpose of carrying on specific activities or to obtain certain objectives. The District uses one fund. The following fund and fund type is used by the District:

Governmental Fund Type

General Fund - Used to account for all unrestricted resources of the District. The general fund is accounted for using the current financial resources measurement focus. Only current assets and current liabilities are generally included in the balance sheet. Its operating statement presents sources and uses of available resources during a given period.

Budgets and Budgetary Accounting

By state law, the District's governing board must adopt a preliminary budget prior to the beginning of each fiscal year. A final budget must be adopted by October 1st. The budget must be adopted in a properly noticed meeting.

Actual revenues and expenditures are compared to budgeted amounts monthly as a management control device for all budgeted funds. The District monitors capital expenditures by comparison to specific project appropriation accounts.

Restricted Investments

Restricted investments consist of funds held in the Placer County Investment Pool on behalf of the North Tahoe Firefighters Association ("NTFA"). The corresponding liability to the NTFA is recorded as "other liabilities" in the accompanying financial statements.

Capital Assets

Capital assets are reported in the government-wide Statement of Net Position, but are not reported in the fund financial statements.

NORTH TAHOE FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS

For the Year Ended June 30, 2018

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated fixed assets are valued at their estimated fair market value on the date donated.

All capital assets, except for land and construction in progress, are depreciated. Depreciation is computed using the straight-line method over the estimated useful lives ranging from 3 to 40 years.

Compensated Absences

It is the District's policy to permit employees to accumulate vacation benefits of up to 960 hours, which will be paid to the employee upon separation from District service. In addition, certain District employees are eligible to accumulate comp time up to 216 hours. Accumulated vacation and comp time that is expected to be liquidated within 90 days after the year-end is considered to be current and is reported as an expenditure and a liability of the fund financial statements. The entire compensated absence liability and expense is reported on the government-wide financial statements.

The District's sick leave policy provides for an unlimited accumulation of earned sick leave. Sick leave does not vest but unused sick leave accumulated at the time of retirement may be used in the determination of length of service for retirement benefit purposes. Since the District has no obligation for the accumulated sick leave until it is actually taken, no accrual for sick leave has been made in the accompanying financial statements.

Pensions

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported by the CalPERS Financial Office. For this purpose, benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value. CalPERS audited financial statements are publicly available reports that can be obtained at CalPERS' website under Forms and Publications.

For this report, the following timeframes are used.

Valuation Date (VD)	June 30, 2016
Measurement Date (MD)	June 30, 2017
Measurement Period (MP)	July 1, 2016 to June 30, 2017

NORTH TAHOE FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS

For the Year Ended June 30, 2018

Post-Employment Benefits Other Than Pensions

In June 2015, GASB issued Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits other than Pensions. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (“OPEB”). This Statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expenses related to OPEB. These standards apply to all public employers that pay any part of the cost of retiree health benefits for current or future retirees. The District engaged Total Compensation Systems, Inc. (TCS) to analyze liabilities associated with its current retiree health program as of June 30, 2017.

For this report, the following timeframes are used.

Valuation Date (VD)	June 30, 2017
Measurement Date (MD)	June 30, 2017
Measurement Period (MP)	July 1, 2016 to June 30, 2017

At June 30, 2018, the District had an unrestricted (deficit) of \$(9,423,520). This deficit is primarily a result of implementation of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* as well as GASB Statement No. 75, *Accounting and Financial Reporting for Other Post-Employment Benefits*. The District expects that these deficits will be funded with future subsidies.

Fund Balance

In the fund financial statements, the District reserves those portions of fund balance which are legally restricted for a specific future use. The Restricted Fund balance represents the portion of fund balance restricted by mitigation fees. Mitigation fees are charged on all new building and construction in the District’s service area. The fees, in accordance with Placer County ordinance, can be used only for new construction and development of fire protection facilities, apparatus and services. The District spent approximately \$110,000 of mitigation fees during the year ended June 30, 2018. Unrestricted Fund balance is the portion of fund balance available for use in future periods.

In accordance with GASB issued statement No. 54, *Fund Balance Reporting and Governmental Fund type Definitions*, Fund Balance is classified into the following five components:

- * *Non-spendable fund balance*—amounts that are not in a spendable form (such as inventory) or are required to be maintained intact (such as the corpus of an endowment fund).
- * *Restricted fund balance*—amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

NORTH TAHOE FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS

For the Year Ended June 30, 2018

- * *Committed fund balance*—amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.
- * *Assigned fund balance*—amounts a government *intends* to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority.
- * *Unassigned fund balance*—amounts that are available for any purpose; these amounts are reported only in the general fund.

Net Position

Net Position represents the District’s financial and capital resources and is calculated as the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. Cash and Investments

A summary of cash held by the District at June 30, 2018 is as follows:

Cash on deposit at Plumas bank	\$ 937,502
--------------------------------	------------

Deposits

Custodial credit risk for deposits is the risk that in the event of a bank failure, the District’s deposits may not be returned or the District will not be able to recover collateral securities in the possession of an outside party. All District deposits in excess of insurance from the Federal Deposit Insurance Corporation are collateralized with eligible securities, in amounts equal to at least 110% of the District’s carrying value of the deposits (demand deposits and certificates of deposit). Such collateral, as permitted by the State of California, is held in each respective bank’s collateral pool at a Federal Reserve Bank, or member bank other than the depository bank, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds.

With the exception of deposit insurance provided by the Federal Deposit Insurance Corporation, none of the District’s bank balances at June 30, 2018 are exposed to custodial

NORTH TAHOE FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2018

credit risk with deposits uninsured and collateralized with securities held by the pledging financial institution or its agent but not in the District's name.

Investments

Pursuant to the District's Investment Policy, the District is allowed to invest in the Placer County investment pool, Tax and Revenue Anticipation Note and Guaranteed Investment Contract. The District investments consist of deposits held in the Placer County investment pool. The District had no funds invested in the Guaranteed Investment Contract during the year ended June 30, 2018.

The District's investments are recorded at fair value at June 30, 2018 as follows:

	<u>Maturities</u>	<u>Fair Value</u>
Placer County Investment Pool	Less than 1 year	<u>\$ 7,196,513</u>

Interest Rate Risk

The District does not have a formal investment policy that limits investments maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

The District's investments in the Placer County investment pool have not been rated by a nationally recognized statistical agency.

3. Fair Value Measurements

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The District has the following recurring fair value measurements as of June 30, 2018:

- a) Placer County Pooled Investment Fund of \$7,196,513 is valued using the underlying quoted market prices (Level 2 inputs)

NORTH TAHOE FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS

For the Year Ended June 30, 2018

4. Explanation of the Differences between the Governmental Fund Balance Sheet and the Statement of Net Position

The District's "Total fund balance" of \$7,451,634 in Exhibit A differs from "Net Position" of (\$8,013,608) reported in the Statement of Net Position. This difference results from the long-term economic focus of the statement of Net Position versus the current financial resources focus of the governmental fund balance sheet. An explanation of the reconciliation adjustments between the statements is described below:

Ambulance billing receivables, grant reimbursements, and service contracts not collected within 90 days after the District's fiscal year are not considered "available" revenues in the Governmental Funds and, therefore, have not been recorded in the Governmental Funds.	<u>\$ 464,239</u>
--	-------------------

Ground emergency medical transportation reimbursements applied for from the Department of health care services and not collected within 90 days after the District's fiscal year end have not been recorded in the Governmental Funds.	<u>\$ 99,860</u>
--	------------------

When capital assets (land, construction in progress, buildings, and equipment) are purchased or constructed, the costs of those assets are reported as expenditures in the Governmental Funds. The statement of Net Position includes these capital assets.

Land	<u>\$ 73,455</u>
Depreciated capital assets	\$ 16,987,933
Accumulated depreciation	<u>(6,132,022)</u>
	<u>\$ 10,855,911</u>

Deferred outflows of resources related to pensions and OPEB will not be realized as current financial resources and are not reported in the Governmental Funds. The statement of Net Position includes these deferred outflows of resources.

Deferred outflows related to pensions	<u>\$ 6,299,368</u>
Deferred outflows related to OPEB	<u>\$ 303,048</u>

Interest payable on long-term debt is not accrued in the Governmental Funds, but is recognized as an expenditure when due.	<u>\$ 122,338</u>
--	-------------------

NORTH TAHOE FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2018

Certain liabilities and deferred inflows of resources are not payable from current financial resources and therefore are not reported in the Governmental Funds. Those liabilities and deferred inflows of resources consist of:

Compensated absences	\$ 700,307
Net OPEB Liability	\$ 6,725,996
Aggregate net pension liability	\$ 16,122,285
Notes payable	\$ 9,546,071
Deferred inflows related to pensions	\$ 344,126

5. Explanation of Differences between Governmental Fund Operating Statement and the Statement of Activities

The District’s “Revenues over expenditures” of 519,862 in Exhibit B differs from the “change in Net Position” of (\$861,027) reported in the Statement of Activities. The difference arises from the long-term economic focus of the statement of activities versus the current financial resources focus of the Governmental Funds. The components of the difference are described below:

Ambulance billing receivables, grant reimbursements, and service contracts not collected within 90 days after the District’s fiscal year ends are not considered “available” revenues in the Governmental Funds:

Change in accounts receivable	\$ 146,647
Ambulance billing receivables written off as not collectable are not considered “available” revenues in the Governmental Funds	261,609
	\$ 408,256

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures of the Governmental Funds:

Change in salaries payable	\$ 46,178
Change in compensated absences payable and deferred outflows and inflows of resources associated with long term net pension liability and net OPEB liability	\$ 1,222,241

NORTH TAHOE FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2018

6. Proceeds of Taxes Limitation and Property Taxes

Article XIII B of the California Constitution, as implemented by SB1352 of 1980, specifies that proceeds of taxes of governmental entities may increase by an amount not to exceed the change in population, and the changes in the United States Consumer Price Index or California per capita personal income, whichever is less.

The proceeds of taxes limitation for the fiscal year corresponding to that of the State of California (July 1, 2017 to June 30, 2018) is \$19,029,381.

Property taxes attach as an enforceable lien on property as of the first Monday in March. Property taxes are payable in two installments and are delinquent after December 10th and April 10th. The District collects its share of property taxes through Placer County. Property tax revenues are recognized when levied to the extent that they result in current receivables.

7. Capital Assets

Capital asset activity for the year ended June 30, 2018 was as follows:

	Beginning Balances	Additions/ Depreciation	Disposals/ Transfers	Ending Balances
Capital assets not depreciated:				
Land	\$ 73,455	\$ -0-	\$ -0-	\$ 73,455
Construction in progress	-0-	-0-	-0-	-0-
Total capital assets not depreciated	<u>73,455</u>	<u>-0-</u>	<u>-0-</u>	<u>73,455</u>
Capital assets being depreciated:				
Buildings and improvements	10,596,918	-0-	-0-	10,596,918
Equipment	6,428,639	346,392	(384,016)	6,391,015
Total capital assets being depreciated	<u>17,025,557</u>	<u>346,392</u>	<u>(384,016)</u>	<u>16,987,933</u>

NORTH TAHOE FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2018

Principal and interest maturities of long-term debt due during the next five years and thereafter are as follows:

Year Ending June 30	Principal	Interest
2019	\$ 514,669	\$ 283,665
2020	496,353	276,961
2021	477,724	262,102
2022	492,958	247,778
2023	472,559	232,997
2024-2038	7,091,808	2,032,764
	\$ 9,546,071	\$ 3,336,267

9. Compensated Absences

The District offers certain qualifying employees comp time and paid vacation. Changes in obligations for vacation and comp time at June 30, 2018, are as follows:

	Balance June 30, 2017	Additions	Reductions	Balance June 30, 2018	Current Portion
Accrued vacation	\$ 679,550	\$ 446,792	\$ (403,429)	\$ 722,913	\$ 105,336
Accrued comp time	140,531	297,175	(276,598)	161,108	78,378
Total	\$ 820,081	\$ 743,967	\$ (680,027)	\$ 884,021	\$ 183,714

10. Employee Retirement System

A. Plan Description

The District contributes to two defined benefit pension plans: the Safety Plan of the North Tahoe Fire Protection District (the “Safety Plan”) and the Miscellaneous Plan of the North Tahoe Fire Protection District (the “Miscellaneous Plan”). Each plan provides retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries. Each plan is part of the Public Agency portion of the California Public Employees Retirement System (CalPERS), a cost-sharing multiple-employer defined benefit plan administered by CalPERS, which acts as a common investment and administrative agent for participating public employers within the State of California. Since each of the Plans has less than 100 active members, it is required to participate in a cost-sharing risk pool. A menu of benefit provisions as well as other requirements is established by State statutes within the Public Employees’ Retirement Law. The District selects optional benefit provisions from the benefit menu by contract with CalPERS and adopts those benefits through Placer County ordinance and Board of Director approval. CalPERS issues a separate comprehensive annual financial report. Copies of the

NORTH TAHOE FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS

For the Year Ended June 30, 2018

CalPERS' annual financial report for each plan may be obtained from the CalPERS Executive Office - 400 P Street - Sacramento, CA 95814.

Effective January 1, 2010, the District amended its contract with CalPERS to include a second tier retirement plan for all new hires between January 1, 2010 and December 31, 2012. Employees classified as classic members under CalPERS are also included in this category.

Effective January 1, 2013, as part of the CalPERS reform, a new tier created was for all new members joining CalPERS.

B. Funding Policy

Active members in the Safety Plan and the Miscellaneous Plan are required to contribute a percentage of their annual covered salary towards their retirement plan. Beginning January 1, 2013, Safety Tier I and Tier II members paid 5% and Miscellaneous Tier I and Tier II members paid 4% of their employee contributions. Effective March 2014, Safety Tier I and Tier II members paid an additional 4% of their employee contributions for a total of 9% as well paying 1% of the employer's contributions. Similarly, Miscellaneous Tier I and Tier II members paid an additional 4% of their employee contributions for a total of 8%. Effective January 2015, Safety Tier I and Tier II members paid 9% of their employee contributions as well as 2% of the employer's contributions. Similarly, Miscellaneous Tier I and Tier II members paid 8% of their employee contributions. Members to both plans after January 1, 2013 are considered Tier III (PEPRA) members. Safety Tier III members contribute 11.5% and Miscellaneous Tier III members contribute 6.25% to their respective plans.

The District is required to contribute the actuarially determined remaining amounts necessary to fund the benefits for its members. The actuarial methods and assumptions used are those adopted by the CalPERS Board of Administration. The required employer contribution rate for fiscal 2017/18 was 22.027% for the Tier I Safety Plan, 20.022% for the Tier II Safety Plan, 11.990% for the PEPRA Safety Plan, 14.075% for the Tier I Miscellaneous Plan, 12.818% for the Tier II Miscellaneous Plan and 6.533% for the PEPRA Miscellaneous Plan. In addition, contributions to unfunded liabilities of \$1,123,735 and \$73,857 were required to be made for the Tier I Safety Plan and Tier I Miscellaneous Plan, respectively. The contribution requirements of both the Safety Plan and the Miscellaneous Plan members are established by State statute and the employer contribution rate and unfunded liability contribution is established and may be amended by CalPERS.

NORTH TAHOE FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS

For the Year Ended June 30, 2018

C. Pension Liabilities, Pension Expense and Deferred Outflows/Inflows of Resources Related to Pensions

The following tables show the District's proportionate share of the collective net pension liabilities over the measurement period.

Miscellaneous Plan			
Increase (Decrease)			
	Plan Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Plan Net Pension Liability/(Asset) (c)=(a)-(b)
Balance at: 6/30/16 (VD)	\$ 2,839,158	\$ 1,909,424	\$ 929,734
Balance at: 6/30/17 (MD)	3,104,007	2,075,607	1,028,400
Net Changes during 2016-17	\$ 264,849	\$ 166,183	\$ 98,666

Safety Plan			
Increase (Decrease)			
	Plan Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Plan Net Pension Liability/(Asset) (c)=(a)-(b)
Balance at: 6/30/16 (VD)	\$ 47,367,159	\$ 33,739,851	\$ 13,627,308
Balance at: 6/30/17 (MD)	51,701,153	36,607,268	15,093,885
Net Changes during 2016-17	\$ 4,333,994	\$ 2,867,417	\$ 1,466,577

At June 30, 2018, the District reported net pension liabilities for its proportionate share of the net pension liability of each Plan as follows:

	Proportionate Share of Net Pension Liability
Miscellaneous	\$ 1,028,400
Safety	15,093,885
Total	\$ 16,122,285

The District's net pension liability for each Plan is measured as the proportionate share of the net pension liability. The net pension liability of each of the Plans is measured as of June 30, 2017, and the total pension liability for each Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2016 rolled forward to June 30, 2017 using standard update procedures. The

NORTH TAHOE FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS

For the Year Ended June 30, 2018

District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined. The District's proportionate share of the net pension liability for each Plan as of 2017 was as follows:

	Miscellaneous	Safety
Proportion - June 30, 2018	0.02609%	0.25261%

At June 30, 2018, the District recognized pension expense of \$2,796,542.

As of June 30, 2018, the District reports other amounts for the Plan as deferred outflows and deferred inflows of resources related to pensions as follows:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 152,032	\$ 54,322
Changes of assumptions	2,319,227	177,876
Difference between projected and actual investment earnings	506,734	-0-
Difference between employer's contributions and proportionate share of contributions	740,688	-0-
Change in employer's proportion	444,779	111,927
Employer contributions subsequent to the measurement date	2,135,908	-0-
Total	\$ 6,299,368	\$ 344,126

NORTH TAHOE FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2018

Amounts reported as deferred outflows and deferred inflows of resources related to pensions, other than the employer-specific item of \$2,135,908, will be recognized in future pension expense as follows:

Measurement Period Ended June 30:	Miscellaneous	Safety	Total
2019	\$ 60,589	\$ 1,245,499	\$ 1,306,087
2020	89,598	1,639,018	1,728,616
2021	56,466	1,024,925	1,081,391
2022	(17,392)	(279,368)	(296,759)
2023	-0-	-0-	-0-
Thereafter	-0-	-0-	-0-
	\$ 189,261	\$ 3,629,851	\$ 3,819,334

D. Actuarial Method and Assumptions Used to Determine Total Pension Liability

For the measurement period ending June 30, 2017 (the measurement date), the total pension liability was determined by rolling forward the June 30, 2016 total pension liability. Both the June 30, 2016 total pension liability and the June 30, 2017 total pension liability were based on the following actuarial methods and assumptions:

Actuarial Cost Method	Entry age normal in accordance with the requirement of GASB Statement No. 68
Actuarial Assumptions	
Discount Rate	7.15% for 6/30/17, 7.65% for 6/30/16
Inflation	2.75%
Payroll Growth	3.00%
Salary Increases	Varies by entry age and service
Investment Rate of Return	7.15% net of pension plan investment and administrative expenses; includes Inflation
Mortality Rate Table *1	Derived using CALPERS' membership date for all funds
Post Retirement Benefit Increase	Contract COLA up to 2.75% until purchasing power protection allowance floor on purchasing power applies, 2.75% thereafter

*1 The mortality table used was developed based on CalPERS' specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB. For more details on this table, please refer to the 2014 experience study report.

All other actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the fiscal years 1997 to 2001, including

NORTH TAHOE FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2018

updates to salary increase, mortality and retirement rates. The Experience Study report can be obtained at CalPERS’ website under Forms and Publications.

E. Discount Rate

The discount rate used to measure the total pension liability was 7.15 percent. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.15 percent discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate of 7.15 percent is applied to all plans in the Public Employees Retirement Fund. The stress test results are presented in a detailed report called “GASB Crossover Testing Report” that can be obtained at CalPERS’ website under the GASB 68 section. CalPERS has approved to adjust the discount rate to 7% by 2020.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of real arithmetic rates of return for each major asset class are summarized in the following table:

Asset Class	New Strategic Allocation	Real Return Years 1-10	Real Return Years 11+
Global Equity	47.0%	4.90%	5.37%
Global Debt Securities	19.0	0.80	2.27
Inflation Assets	6.0	0.60	1.39
Private Equity	12.0	6.60	6.63
Real Estate	11.0	2.80	5.21
Infrastructure and Forestland	3.0	3.90	5.36
Liquidity	2.0	(0.40)	(0.90)

Sensitivity of Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability/(asset) of the Plan as of the measurement date, calculated using the discount rate of 7.15 percent, as well as what the net pension liability/(asset) would be if it were calculated using a discount rate that is 1 percentage-point lower (6.15 percent) or 1 percentage-point higher (8.15 percent) than the current rate:

NORTH TAHOE FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2018

		Discount Rate	Current	Discount Rate
		- 1% (6.15%)	Discount Rate (7.15%)	+1% (8.15%)
Plan's Net Pension Liability/(Asset)	Miscellaneous Plan	\$ 1,455,347	\$ 1,028,400	\$ 674,796
	Safety Plan	\$ 22,327,758	\$ 15,093,885	\$ 9,180,554

F. Payables to the Pension Plan

At June 30, 2018, the employer's contribution for the final payroll of the fiscal year had not been paid and was included in accounts payable for \$60,649.

11. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The District is a member of a Joint Powers Authority for the operation of common risk management and insurance programs. The program covers workers' compensation insurance. The Authority is governed by Executive Boards consisting of representatives from member districts. The Executive Boards control the operations of the Authority, including selection of management and approval of operating budgets.

The relationship between the District and the Joint Powers Authority is such that the Authority is not a component unit of the District for financial reporting purposes.

For workers' compensation insurance, the District has joined together with other special districts within the state to form the Fire District Association of California Fire Association Self Insurance System ("FDAC-FASIS"). The District pays estimated annual premiums to the FDAC-FASIS based upon estimated payroll classified into rate categories set by FDAC-FASIS and an experience modification based upon the District's loss history over the past three years. Actual premium due is determined after the fiscal year end and is based upon actual payroll. The FDAC-FASIS is entitled to assess additional premiums or to refund premiums based upon a pro rata allocation of the District's premium paid to total premiums paid. The District is not assessed additional premiums or refunded premiums on an individual basis based upon claims or loss experience. The FDAC-FASIS agrees to pay all amounts legally required by California workers' compensation laws.

For property, liability, directors and officers, and errors and omissions insurance, the District purchases commercial insurance through the Special District Risk Management Authority, a joint powers agency formed pursuant to *California Government Code* Section 6500 et. seq., comprised of California special districts, agencies and cities.

NORTH TAHOE FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2018

12. Other Post-Employment Benefits

A. Plan Description

In addition to the pension benefits described in Note 10, the District administers a defined benefit OPEB plan through CalPERS, an agent multiple-employer retirement system for all eligible retired employees and their dependents. Benefit provisions are established and may be amended by District agreements and memorandums of understanding between the District, its management employees and unions representing its employees, which are approved by the District Board of Directors. The plan does not issue a stand-alone financial report.

The District provides eligible retirees medical benefits through the California Public Employees' Retirement system healthcare program (PEMHCA). It pays retiree healthcare benefits up to a cap for eligible retirees, dependent on bargaining unit and hire date.

In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits other than Pensions*. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions ("OPEB") and would replace GASB statements 45 and 57. This Statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expenses/expenditures related to OPEB. These standards apply to all public employers that pay any part of the cost of retiree health benefits for current or future retirees (including early retirees), whether they pay directly or indirectly. This is the first year of implementation for the District.

At June 30, 2017, the following numbers of participants were covered by the benefit terms

	Number of Covered Participants
Inactive employees receiving benefits	24
Inactive employees entitled to but not receiving benefits	-0-
Participating active employees	58

B. Funding Policy

The District currently pays for these costs on a "pay as you go basis", in addition to making annual contributions to the CalPERS California Employers' Retiree Benefit Trust (CERBT). For fiscal year 2018, the District's contributions were \$248,310 which consisted entirely of cash benefit payments. No contribution was made to the trust in the current fiscal year.

NORTH TAHOE FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2018

C. Net OPEB Liability

As of June 30, 2018, the District report a net OPEB liability of \$6,725,996. The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2017. In order to determine the beginning net OPEB liability, the District utilized a “roll-back” technique as allowed per paragraph 244 of GASB 75.

The following table summarized the changes in the net OPEB liability:

	Increase (Decrease)		
	Total OPEB Liability	Plan Fiduciary Net Position	Net OPEB Liability
Roll back balance at June 30, 2016	\$6,424,781	\$212,578	\$6,212,203
Changes for the year:			
Service cost	331,928	-0-	331,928
Interest on total OPEB liability	452,348	-0-	452,348
Employer contributions	-0-	248,130	(248,130)
Employee contributions	-0-	-0-	-0-
Net investment income	-0-	22,542	(22,542)
Administrative expenses	-0-	(189)	189
Benefit payments	(248,130)	(248,130)	-0-
Net change during 2016-17	536,146	22,353	513,793
Balance at June 30, 2017	\$6,960,927	\$234,931	\$6,725,996

D. OPEB Expense and Deferred Outflows of Resources Related to OPEB

For the year ended June 30, 2018, the District recognized OPEB expense of \$762,103. At June 30, 2018, the District reports deferred outflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
District contributions subsequent to the measurement date	\$ 303,048	\$ -0-
Total	\$ 303,048	\$ -0-

NORTH TAHOE FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS

For the Year Ended June 30, 2018

District contributions of \$303,048 (including a \$50,000 payment to the trust) reported as deferred outflows of resources to OPEB and will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2019.

E. Actuarial Methods and Assumptions

The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. For the measurement period ending June 30, 2017 (the measurement date), the net OPEB liability was based on the following actuarial methods and assumptions:

Actuarial Cost Method	Entry age normal in accordance with the requirement of GASB Statement No. 75
Actuarial Assumptions	
Discount Rate	7% per year net of expenses
Inflation	2.75%
Investment Return	7%
Salary Increases	2.75%
Healthcare Cost Trend	4%
Mortality Rate Table	Derived using CALPERS' 2014 Mortality Data
Retirement Rates	Hired < 1/1/10: 3% @50 Retirement Rates for Firefighters Hired 1/1/10 to 12/31/12: 3% @55 Retirement Rates for Firefighters Hired > 12/31/12: 2.7% @57 Retirement Rates for Firefighters 2009 CalPERS 2% @60 Rates for Miscellaneous Employees
Service Requirement	100% at 5 years of service

The investment return is based on assumed long-term return on plan assets assuming 100% funding through CERBT using the building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major class of asset. The ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

NORTH TAHOE FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2018

The table below reflects the long-term expected real rate of return by asset class.

Asset Class	Percentage of Portfolio	Assumed Gross Return
US Large Cap	43.00	7.795
US Small Cap	23.00	7.795
Long-Term Corporate Bonds	12.00	5.295
Long-Term Government Bonds	6.00	4.500
Treasury Inflation Protected Securities (TIPS)	5.00	7.795
US Real Estate	8.00	7.795
All Commodities	3.00	7.795

Discount Rate - The discount rate used to measure the total OPEB liability was 7%. The District assumed that contribution would be sufficient to fully fund the obligation over a period not to exceed 30 years. The district used 30 year real rates of return for each asset class along with the assumed long-term inflation assumptions to set the discount rate. The District offset the expected investment return by investment expense of 25 basis points.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate - The following represents the net OPEB liability of the District as of the measurement date, calculated using the discount rate of 7 percent, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6 percent) or 1 percentage-point higher (8 percent) than the current rate:

	Discount Rate - 1% (6%)	Current Discount Rate (7%)	Discount Rate +1% (8%)
Net OPEB Liability	\$ 7,682,254	\$ 6,725,996	\$ 5,940,744

Sensitivity of the Net OPEB Liability to Changes in Healthcare Cost Trends - The following presents the total OPEB liability of the District as of the measurement date, calculated using the healthcare cost trend of 4 percent, as well as what the total OPEB liability would be if it were calculated using a trend that is 1 percentage-point lower (3 percent) or 1 percentage-point higher (5 percent) than the current rate:

	Trend Rate - 1% (3%)	Current Trend Rate (4%)	Trend Rate +1% (5%)
Net OPEB Liability	\$ 5,934,622	\$ 6,725,996	\$ 7,660,682

NORTH TAHOE FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS

For the Year Ended June 30, 2018

F. OPEB Plan Fiduciary Net Position

Detailed information about OPEB plan fiduciary net position is available in the separately issued CalPERS financial Report.

13. Alpine Springs County Water District

In September 2006, North Tahoe Fire District (“the District”) entered into a revised agreement with Alpine Springs County Water District (“Alpine Springs”) in which the District agreed to provide all fire protection, fire prevention, fire suppression, rescue and emergency medical services for the indicated area. In return Alpine Springs agreed to lease to the District the Alpine Meadows Fire Station and attached fixtures for one dollar per year for the duration of the agreement. Additionally, Alpine Springs agreed to transfer to the District possession and title to the existing fire apparatus, tools and equipment and all fire station furnishings and equipment.

This agreement shall terminate in December 2021. Upon termination of this agreement, the District shall return possession of the fire station to Alpine Springs. Additionally, the District shall transfer to Alpine Springs its right, title and interest to and possession of the fire apparatus, tools and equipment and all fire station furnishings and equipment. Aforementioned property shall be in like kind condition as when received by the District, ordinary wear and tear excepted. Alternatively, the District may elect to pay Alpine Springs a sum equal to the then fair market value of any such property not returned to Alpine Springs.

14. Meeks Bay Fire Protection District

In April 2014, North Tahoe Fire District (“the District”) entered into an agreement with Meeks Bay Fire Protection District (“Meeks Bay”) in which the District agreed to provide fire services management and related services to Meeks Bay. In return Meeks Bay shall pay the District for performance of services. Additionally, Meeks Bay agreed to provide office facilities and supplies and office managerial support as well as providing an appointed fire chief’s vehicle, fuel, vehicle insurance and maintenance.

In 2015, the District entered into an additional companion agreement with a labor group unification provision stating that as of July 1, 2016, all safety personnel will become employees of NTFPD. These payroll costs were incorporated into the contract.

This agreement will automatically renew for each fiscal year commencing July 1 and ending June 30 unless terminated by either party.

NORTH TAHOE FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS

For the Year Ended June 30, 2018

15. Fire Station

The District underwent construction to relocate Station 51 in Tahoe City from the downtown area to Fairway Drive. The total cost of the facility was \$10,140,844.

In May 2010, the District entered into a lease with the California Infrastructure and Economic Development Bank (CIEDB). The District will lease the facilities located at 288 Northshore Blvd., King's Beach, 5424 W. Lake Blvd., Homewood, 159 Observation Drive, Tahoe City, and 240 Carnelian Bay Road, Carnelian Bay from CIEDB as a material consideration for the financing of the construction of the facility up to \$10 million. The District will make bi-annual payments calculated from the remaining principal balance. Payments are to approximate \$585,000 per year through August 1, 2038. The first payment was made in August 2012.

As part of the construction of the station, the District entered into a lease with Tahoe City Public Utility District to lease the land for the station. The term of the lease is for a period of sixty years commencing on December 1, 2009. The District will be charged \$1 per annum during the term of the lease.

16. Community Facilities District

During 2012, a voter-approved Community Facilities District was created to provide funding of an aerial apparatus by the levy of an additional tax on specific developments within the District. As of June 30, 2018, one development was required to join and pay the tax. The balance is recorded as a liability until requirements are met and the amount can be recognized as revenue.

17. Operating Lease

The District has an operating lease for a copier. Rental expense for the year was ended June 30, 2018 was \$9,397. Future minimum lease payments are as follows:

2019	\$	7,162
2020		7,162
2021		7,162
2022		7,162
2023		6,565
		<hr/>
	\$	35,213

To the Board of Directors
North Tahoe Fire Protection District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the statement of net position and governmental fund balance and the related statement of activities and governmental fund revenue, expenditures and changes in fund balance of North Tahoe Fire Protection District, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise North Tahoe Fire Protection District's basic financial statements, and have issued our report thereon dated February 15, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered North Tahoe Fire Protection District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of North Tahoe Fire Protection District's internal control. Accordingly, we do not express an opinion on the effectiveness of North Tahoe Fire Protection District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether North Tahoe Fire Protection District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

To the Board of Directors
North Tahoe Fire Protection District

Report on Compliance for Each Major Federal Program

We have audited North Tahoe Fire Protection District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of North Tahoe Fire Protection District's major federal programs for the year ended June 30, 2018. North Tahoe Fire Protection District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of North Tahoe Fire Protection District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about North Tahoe Fire Protection District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of North Tahoe Fire Protection District's compliance.

Opinion on Each Major Federal Program

In our opinion, North Tahoe Fire Protection District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

Report on Internal Control over Compliance

Management of North Tahoe Fire Protection District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered North Tahoe Fire Protection District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of North Tahoe Fire Protection District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of North Tahoe Fire Protection District, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise North Tahoe Fire Protection District's basic financial statements. We issued our report thereon dated February 15, 2019, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

NORTH TAHOE FIRE PROTECTION DISTRICT

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

For the Year Ended June 30, 2018

1. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of North Tahoe Fire Protection District (the "District") under programs of federal government for the year ended June 30, 2018. The information in this Schedule is presented in accorded with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the Operations of the District, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the District.

2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance and/or wherein certain types of expenditures are not allowable or are limited as to reimbursement.

3. Indirect Cost Rate

The District has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.
