FOR IMMEDIATE RELEASE

## RED FLAG WARNING DECLARATION – VERY HIGH FIRE DANGER

**Tahoe City, Calif. August 23, 2020** – The National Weather Service (NOAA) has issued a Red Flag Warning from 8 PM Sunday to 11 AM PDT Monday for thunderstorms and strong outflow winds for northeast California, the Tahoe Basin, eastern Sierra, and far western Nevada. The Fire Chief of the North Tahoe Fire Protection District, in accordance with the California Fire Code with amendments adopted by the Boards of Directors of the North Tahoe Fire, Meeks Bay Fire and Alpine Springs CWD, has issued a Declaration **prohibiting all sources of outdoor open flame** within these Districts during the time period the Red Flag Warning is in effect (CF Code 307.1.1).

North Tahoe Fire Protection District (NTFPD) and Meeks Bay Fire Protection District (MBFPD) issue a Declaration to suspend all sources of outdoor open flame, including gas and LPG fire pits/grills and pellet grills/smokers. Recreational fires (CFC 202) (Campfires) are never permitted during fire season. All sources of outdoor open flame are prohibited during these periods, including all outdoor propane (LPG) and Natural Gas fired appliances. The actual hours of Red Flag Warnings may vary by the specific atmospheric conditions; check the [NOAA website](#) or follow them on social media for the latest Red Flag timing.

The National Weather Service (NWS) in Reno issues Red Flag Warnings to alert Tahoe Basin land management agencies about the onset, or possible onset of critical weather and fuel moisture conditions that could lead to rapid or dramatic increases in wildfire activity. This could be due to low relative humidity, strong winds, dry fuels or any combination thereof. A Red Flag Warning is issued when the above conditions are expected to be met within the next 24 hours.

Now is the time to ensure your vehicle has a full tank of fuel, your devices are charged, your emergency go kit is current and within reach, and that your family and pets are prepared and ready to evacuate. Visit our website for information on [Emergency and Evacuation Preparedness](#).
