

Emergency Medical Services

Date: February 17, 2021

To: Chief Leighton

From: Battalion Chief Sedgwick

Subject: January EMS Report

- Since March 2020, we have transported 44 patients under investigation for COVID 19. Of those transported, 13 were Covid Positive. Everyone continues to follow all safety guidelines.
- Our new Paramedics are doing very well with their training. A Shift's TAP (Firefighter/Paramedic Taran Madison) has been moved on to TAP 3 which allows him to work in the patient compartment alone.
- Thank you, Joe, for installing the HEPA H14 Filtration System and a UVc light into Medic 251. The addition of the H14 will allow for a larger air exchange in the patient compartment when we transport a patient with a respiratory disease during long-distance interfacility transports.
- UAV Pilot Group- 10 pilots spread throughout the shifts and stations. 5 Aircraft:
 - Two carried by BC 5, 1 Dual and 1 Zoom
 - One at Station 56- Zoom
 - One at Station 53- Dual
 - One at Station 52- Phantom
- SSV Time Compliance through January 2021
Awaiting data from SSV.
- Ambulance Revenue - Wittman Enterprises 2020

January Net Receipts	\$	87,806
Wittman fee 4.95%	\$	4,016
Fiscal 2020/2021 Net Receipts (7 months)	\$	852,161
